- **Made** in Sweden
- **Warranty:** 2 years

A simple and effective tripod seat

The **Walkstool Basic** focuses on the essentials: a stable and lightweight **folding aluminum tripod** designed for those seeking a reliable solution without unnecessary features. It unfolds in seconds and immediately provides a comfortable seat, even on uneven terrain.

Two seat heights to choose from

Available in **50 cm** or **60 cm** , it adapts to your body shape and your needs. The 60 cm version offers a more comfortable height for easier standing, while the 50 cm version prioritizes maximum

compactness.

Ultra portable and compact

When folded, it measures only **36 to 41 cm** depending on the model. Slipped into a backpack, attached to a hunting pack, or stored in a trunk, it's easily forgotten... until you really need it. Weighing in at a starting price of **650 grams** , it boasts an excellent strength-to-weight ratio.

Durability and Swedish design

Its **high-quality aluminum** frame allows it to support up to **175 kg,** depending on the version. Made in **Sweden** , it meets high quality standards, with a design built to last season after season.

Ideal for many uses

Whether **hunting** or **fishing** , it allows you to stay comfortably in position. On a hike or bivouac, it provides a proper seat around the fire. Photographer, camper, event attendee, or traveling professional: it's exactly the kind of accessory you appreciate having on hand.

FAQ

What is the difference between the 50cm and 60cm versions?

The main difference lies in the seat height and load capacity: 50 cm supports up to 150 kg, while the 60 cm version can reach 175 kg and offers a higher and more comfortable position.

Is the seat suitable for heavy use?

The Walkstool Basic is ideal for occasional use. For professional or frequent use, the Walkstool Comfort range is recommended.

Is it stable on uneven terrain?

Yes, thanks to its tripod design, it offers excellent stability on uneven, grassy or slightly rough ground.
