The range of masks that precisely meets the needs and desires of paintball players.

Meet the revolutionary DYE i5 mask - the new benchmark in paintball face protection! With innovative features like the GSR Pro-Strap, the mask fits perfectly. The extra-wide 290-degree field of vision and improved airflow ensure unmatched comfort and protection. No more foggy windows thanks to the excellent anti-fog technology. The foam can be replaced quickly and easily without tools thanks to the quick-release foam kit. The i5 is lightweight and comfortable, so you can stay in the game longer and focus fully on the action!

The latest range of DYE i5 masks marks a revolutionary advance in paintball eye and face protection technology that precisely meets the needs and desires of paintball players.

The i5 is not only an evolution of the most popular mask range, but also a leader in market innovation. Revolutionary features such as the GSR Pro-Strap and excellent wearing comfort set new standards.

Designed for optimal performance and inspiration, the i5 features an aggressively lightweight design while offering superior protection, enhanced airflow, increased comfort, improved hearing, and enhanced safety. This combination translates into unmatched performance on the field.

The extra-wide field of vision ensures you always have an overview, while the new soft multi-layer foam and GSR Pro-Strap offer maximum comfort and security.

The features of the DYE i5 at a glance

Mask Protection v11.5: The i5 is designed to protect every player at all levels. Enhanced protection without adding weight or sacrificing style. The i5 v11.5 mask offers increased protection while maintaining a low profile and high comfort.

GSR Pro Strap: The GSR Pro strap represents a leap forward in design and safety. The GSR lock provides precise control for a secure and comfortable fit. The extra-large pad sits at the back of your head and distributes energy over a larger area. This prevents slippage and ensures maximum comfort. Simply turn the dial and adjust the i5 for a perfect fit. The GSR Pro strap is a revolutionary

step in goggle strap technology and promises the ultimate in comfort and performance.

SCREAM multi-directional ventilation: Thanks to patented technology, the i5 has an improved and increased breathable design, allowing heat and moisture to escape more quickly and facilitating communication with teammates.

Sound recording: clear sound. The i5 Earpads have been specially designed to optimally protect the ears without restricting hearing. Precisely shaped and positioned holes allow sound to reach your ear without distortion.

Ultra-lightweight construction: The i5 impresses with its incredibly lightweight construction and anatomically correct fit. The clear emphasis on high-quality injection molding technology makes this possible!

Anatomical fit and function: The anatomically perfect i5 mask system offers optimal comfort for all facial contours. The mask's geometry has been carefully designed for lasting comfort while ensuring a secure fit. The even pressure distribution provides a gentle yet precise fit and prevents pressure points or signs of fatigue.

Soft Touch Multi-Layer Foam: Comfort at a New Level. DYE's new extra-soft foam delivers the highest level of comfort. The new high-quality, multi-layer foam promises an exceptionally soft yet secure fit.

Quick-release foam kit replacement: the i5 foam can be removed Replace quickly, easily, and without tools. Replace broken or worn foam in seconds and you'll be back on the field.

Rapid Lens Change: The major advantage of the DYE i5 is that you can change the mask lens in seconds. Simply push the retention clips forward on the side and the mask lens can be removed. Efficient, quick, and easy.

Anti-fog thermal lens: The i5 offers you unrestricted vision. Say goodbye to foggy windows thanks to its anti-fog performance. Lenese has already set new standards with the i4 and i4 Pro.

Horizon 290 Lens System: The 290-degree lens gives you a wider field of view than any other lens on the market. You see movement faster, giving you a competitive edge. The i5 goggles feature a premium hard coating, making both the exterior and interior exceptionally scratch-resistant. Additionally, a UV coating protects you from the sun. The DYE i4 (PRO) and i5 use the same lenses.

Compression-shaped ears: Hearing protection is important, but it doesn't have to be bulky. The i5 features soft, flexible, and extremely lightweight ear cushions. Special, breathable materials ensure comfort and complete protection.

ASTM Certified: Sometimes, standards alone aren't enough when it comes to safety. The i5 has been tested to ASTM and CE standards. Your safety is our top priority.
