The range of masks that precisely meets the needs and desires of paintball players.

Meet the revolutionary DYE i5 mask - the new benchmark in paintball face protection! With innovative features like the GSR Pro-Strap, the mask fits perfectly. The extra-wide 290-degree field of vision and improved airflow ensure unmatched comfort and protection. No more foggy windows thanks to the excellent anti-fog technology. The foam can be replaced quickly and easily without tools thanks to the quick-release foam kit. The i5 is lightweight and comfortable, so you can stay in the game longer and focus fully on the action!

The latest DYE i5 goggle line marks a revolutionary advancement in paintball eye and face protection technology that precisely meets the needs and desires of paintball players.

The i5 is not only a further development of the most popular mask range, but also a market leader in innovation. Revolutionary features such as the GSR Pro-Strap and excellent wearing comfort set new standards.

Engineered to perform and inspire optimally, the i5 features an aggressive design that is extremely lightweight while providing optimal protection, improved airflow, increased comfort, enhanced hearing and increased safety. This combination results in unmatched performance on the field.

The extra wide field of vision ensures you always have an overview, while the new soft multi-layer foam and GSR Pro-Strap provide maximum comfort and safety.

DYE i5 Features at a Glance

Mask Protection v11.5: The i5 is designed to protect every player at every level. Increased protection without adding weight or sacrificing style. The i5 v11.5 mask offers increased protection while maintaining a small profile and high comfort.

GSR Pro Strap: The GSR Pro Strap is a leap forward in design and safety. The GSR lock gives you precise control for a secure and comfortable fit. The extra-large pad sits at the back of your

head and distributes energy over a larger surface area. This prevents slippage and ensures maximum comfort. Simply turn the knob and adjust the i5 for a perfect fit. The GSR Pro Strap is a revolutionary step forward in goggle strap technology and promises the ultimate in comfort and performance.

POV Heads Up Mount: Built-in mount for POV cameras. Play with the confidence you have in every moment on video. The POV mount sits at eye level, helping you position the camera correctly so you don't miss a moment of the action.

SCREAM Multi-Directional Ventilation: Using patented technology, the i5 has an improved and increased breathable design, allowing heat and moisture to escape faster and facilitating communication with teammates.

Sound Pickup: Clear Sound. i5 Earpads are specially designed to provide optimal ear protection without restricting hearing. Precisely shaped and positioned holes allow sound to reach your ear without distortion.

Ultra-light construction: The i5 impresses with its lightest possible construction and anatomically correct fit. The clear focus on the quality of the injection molding technology makes this claim possible!

Anatomical fit and function: The anatomically perfect i5 mask system provides the best comfort for all facial contours. The mask geometry has been carefully designed for long-lasting comfort while ensuring a secure fit. The even pressure distribution ensures a soft but precise fit and prevents pressure or signs of fatigue.

Soft Touch Multi-Layer Foam: Comfort at a new level. DYE's new extra soft foam brings the highest level of comfort. The new high-quality multi-layer foam promises an extremely soft yet secure fit.

Quick Release Foam Kit Replacement: The i5 foam can be removed replace quickly, easily and without tools. Replace broken or worn foam in seconds and you'll be back on the field.

Rapid Lens Change: The big advantage of the DYE i5 is that you can change the lens of the mask in seconds. Simply push the retention clips forward on the side and the mask lens can be removed. Efficient, fast and easy.

Anti-fog thermal lens: The i5 gives you unrestricted vision. No more foggy windows thanks to the anti-fog performance. Lenese has already set new standards with the i4 and i4 Pro.

Horizon 290 Lens System: The 290-degree lens gives you more vision than any other lens on the market. You see movements faster and therefore always have an advantage. The i5 goggles are equipped with a high-quality hard coating, which makes the exterior and interior particularly scratch-resistant. In addition, a UV coating protects you from the sun. The DYE i4 (PRO) and i5 use the same lenses.

Compression-Formed Ears: Hearing protection is important, but it doesn't have to be thick. The i5 features a soft, flexible, and extremely lightweight ear cushion. Special, breathable materials ensure comfort and complete protection.

ASTM Certified: Sometimes standard isn't enough when it comes to safety. The i5 has been tested to ASTM and CE standards. Your safety is our top priority.
