Fixed radio for cars.

The **Midland GB1-R** is a compact fixed radio ideal for mobile communication enthusiasts looking for performance and simplicity. Designed to integrate easily into your vehicle or workplace, it offers clear and reliable communication thanks to its compatibility with the PMR446 band, without the need for a license. Its robust design and ease of installation make it an essential option for professionals or outdoor users who require a constant connection over long distances.

- **Tones** 50 CTCSS tones and 104 undefined DCS codes (normal) + 104 undefined inverted DCS)
- 8+91 programmable **channels** with CTCSS
- **Frequency** 446.00625 – 446.09375 MHz undefined 440 – 451MHz export version)
- **Splash resistant** Yes
- **Power supply** 12.6Vdc ± 10% with cigarette lighter socket
- **5W Export Version**

Main features :

- **PMR446 Compatibility** : License-free communication with 16 PMR446 channels available for immediate and convenient use.
- **Extended range** : Up to 10 km in open field (varies depending on conditions and environment), ensuring quality transmission over long distances.
- **Fixed power** : 500 mW, compliant with PMR446 regulations, allowing completely legal use in Europe.
- **Magnetic external antenna included** : For better reception, ideal for installation on a vehicle.
- **LED Display** : Simple, clear screen for quick reading of information, including active channel and battery status.
- **12V operation** : Perfect for installation in a vehicle thanks to its connection to a cigarette lighter socket or a battery.
- **Automatic Squelch** : Reduces noise interference to ensure clear communication.

- **Call tones and VOX** : The integrated VOX system allows for hands-free communication, while call tones help quickly identify other users.
- **Channel Scan** : Automatically scan channels to quickly find open communications.

Ideal use :

- **Off-Road Vehicles and RVs** : The GB1-R is designed for in-vehicle installation with its magnetic antenna, ideal for rural driving or extended expeditions.
- **Professionals** : Whether for logistics, security or event management, this radio enables reliable communication in the field.
- **Camping and hiking** : With its extended range and external antenna, it guarantees reliable connections even in the most isolated environments.

Accessories included :

- **Magnetic antenna** : External antenna for better range and reception quality.
- **Cigarette Lighter Power Cable** : Convenient for use in cars or campers.
- **Mounting bracket** : For fixed and secure installation in your vehicle or at your workstation.

Dimensions and weight :

- **Weight** : 200 g (without accessories)
- **Dimensions** : 100 x 85 x 22 mm

The **Midland GB1-R** is a rugged, compact mobile radio, ideal for those who require reliable communication in their vehicle or in the field. With its PMR446 compatibility, simple installation and included accessories, it is perfectly suited to the needs of professionals and adventurers looking for reliability.
