The Chambord boot, designed for work, is revisited with mesh instead of neoprene!

In contrasting khaki and black, this new version has the advantage of being lighter, more breathable, and antibacterial. It remains comfortable and durable, of course.

- 100% quick-drying polyester lining with Neomesh insulation properties (dries 8.5x faster than neoprene).
- Self-cleaning rubber outsole with lugs for grip and cushioning.
- Upper: mainly natural rubber.

Discover the latest innovation from Aigle: The iconic boot for professionals now has a revolutionary mesh lining. Warmer than ever, this boot is your essential ally in cold weather. In addition to its excellent insulation, the mesh lining offers quick drying, remarkable lightness and incomparable ease of putting on.

To mark the 60th anniversary of the Chambord boot, Aigle is modernizing this classic from its catalog in a new version with Neomesh lining, which dries quickly.

The Neomesh lining, integrated into Aigle boots, offers exceptional performance thanks to its cutting-edge technical characteristics:

- 3 mm thick neoprene, guaranteeing optimal thermal insulation, tested according to ISO 20344:2011 (EPI) standards, providing superior warmth compared to traditional neoprene.

- Made from 100% polyester, ensuring proven durability and abrasion resistance, assessed according to EN 13520:2001/A1:2004 standards.
- Run-proof textile, synonymous with robustness and resilience, for exceptional durability in all conditions of use.
- Incredibly fast drying time, Neomesh dries 8.5 times faster than traditional neoprene, ensuring optimal comfort even after prolonged exposure to humidity.
