SKU	Designation	French Law	MSRP
CH963110	Additional X30T TB collar	Vente libre	605.00 € incl. tax

The DOG GPS X30T 100% waterproof is a 2 in 1 device without subscription! Combining GPS and dressage!

It is both a device used to locate but also to train your dog (s) up to 20 kms. In addition it is equipped with a beeper which emits an audible sound up to 300m.

The ultra precise GPS can monitor up to 13 elements, dogs (requires the purchase of 13 collars), hunters and / or waypoints. The tracking can be done either with the compass system integrated in the orange box but also with the application on smartphone or tablet with the geolocation of the elements sought on a map (dogs, hunters, places of destination). The transmitter acquires its position from the GPS satellites and transmits the position information to the manager's receiver using a radio frequency (RF) signal. The receiver can be connected wirelessly to a mobile phone or tablet (on Android) and all paired devices can be viewed using the Dogtrace GPS app on the map. The receiver display can also monitor the strength of the RF signal, the accuracy of the GPS position, the battery status of the transmitter and receiver.

This kit also makes it possible to train one or more dogs up to 20 kilometers with 15 levels of electrical stimulation. Supplied with 2 sets of contact points, 2 pieces of 10 mm and 2 pieces of 17 mm.

Finally, the collar has a beeper function which makes it possible to locate the dog up to 300m.

- Receiver-readable display in direct sunlight and dark
- Fully waterproof receiver and transmitter
- Allows you to see all devices (dogs, other handlers, waypoints) on the map
- Ability to view maps online and offline
