Ready-to-use pack for long-distance shooting!

This Mossberg pack consists of the following items:

- Mossberg Patriot LR tactical .308 Winchester 22" rifle (MO8035)
- 1 Harris bipod with 6 fixed head positions (A52600)
- 1 RTI 6-24x50 FPP CBR Reticle Scope (OP106L)
- 1 pair of 21mm Picatinny/Weaver mounting clips

Mossberg Patriot LR Tactical .308 Win 22" rifle:

- Caliber 308 Win
- 24" (61 cm) semi-heavy barrel with 1:10 pitch rifled bore and 5/8x24 thread
- Spiral fluted lock
- Adjustable LBA trigger from 910 g to 3.2 kg
- V-Block Aluminum Bedding
- MDT chassis in FDE color with textured vertical grip, adjustable cheek piece and M-LOK attachment system
- Ebase Picatinny 21 mm sloped 20 MoA
- Supplied with a 7-round AICS type magazine

The new Bolt Action from MOSSBERG was developed to allow shooters to exploit the full potential of the 308 Winchester.

Its MDT stock provides all the necessary comfort whether for handling the weapon or aiming.

The V-Block aluminum bedding allows great stability of the barreled action, thus offering great regularity in the shots.

A "long range" bolt action rifle made for the TLD

RTI 6-24X50 FFP CBR Reticle Scope

- First Focal Plane (FFP) Refractor
- 30mm body made of high-strength aeronautical alloy
- Tactical turrets with zeroing
- 1/4 MoA click impact correction (7mm at 100m)
- Illuminated reticle with 11-level adjustable intensity
- CBR stadia reticle with MoA graduation
- Adjustable diopter
- Eye distance 9.9 cm
- Adjustable parallax from 10 yards to infinity
- Magnification 6x to 24x
- 50mm lens
- Comes with protective caps, sun visor, microfiber
- Supplied with lever for magnification ring

An affordable scope specially designed for long-range shooting with its fine MoA graduation reticle, to apply shooting corrections easily and quickly.

Its illuminated reticle allows you to shoot from a distance even in low light.

Its first focal plane gives you significant shooting comfort which will maintain the scale of your graduations regardless of the magnification.

A robust and reliable scope that will withstand the highest calibers of sport shooting and hunting. (308 Winchester, 6.5 CREEDMOOR, 30-06 Springfield, 338 Lapua Magnum, 8x57, 300 Winchester Magnum...)

The CBR stadimetric type reticle has multiple graduations in drift as well as in elevation corresponding to the number of MOA that can be applied to a target impact correction.

For example, a shooter needs to apply an elevation correction of 16 MOA. Instead of manipulating his ballistic turrets, he can quickly and easily apply this correction using the reticle and place the center of his target at the vertical graduation bearing the number 16.

The graduations on the vertical axis ranging from 4 to 36 represent the correction range in MOA for elevation.

The marks on the horizontal axis ranging from 4 to 28 represent the correction range in MOA for drift.

Harris 6-position bipod - Fixed head

Feet with grooves for instant locking in 6 predefined positions, no locking in free intermediate positions. Fixed head.

- Height: 6 to 9" - 14 to 23 cm.
- HARRIS Model: BRM-S
