Precision, power and versatility: the Tisas PX-5.7 OR Black, designed for demanding shooters who leave nothing to chance.

The **Tisas PX-5.7 Black** is a new generation semi-automatic pistol, chambered in **5.7x28mm**. Its design combines lightness, robustness and high capacity, offering sport shooters a versatile and high-performance weapon.

- **caliber:** 5.7x28 mm
- **total length:** 219.5 mm
- **barrel length:** 119.5 mm
- **height:** 141.5 mm
- **width:** 35 mm
- **weight (without charger):** 712 g
- **weight (with full magazine):** 959 g
- **magazine capacity:** 20 rounds (x2 magazines included)
- **carcass:** polymer
- **cylinder head:** forged carbon steel
- **trigger:** single action striker type
- **sights:** front fiber optic, notched rear sight
- **safety features:** trigger with integrated safety, firing pin block

The 5.7x28 mm caliber

Designed by **FN Herstal** to equip the P90 and the Five-seveN, the **5.7x28 mm** is a lightweight and fast-firing ammunition, adopted by NATO in 2021 (STANAG 4509). Its ballistics combine low recoil, high accuracy, and high muzzle velocity, making it a cartridge particularly suited to dynamic sport shooting. Its lightness

also limits the risk of over-penetration.

Accuracy and shooting comfort

With its **fiber optic sights** and direct striker-type trigger, the PX-5.7 offers rapid target acquisition and remarkable firing consistency. Its reduced recoil allows for comfortable and efficient series firing.

Versatility and capacity

With its **20-round magazines**, the shooter benefits from a longer battery life than usual standards. Two magazines are provided, allowing for longer uninterrupted shooting, a welcome advantage in intensive or competitive sessions.

Modern materials

The **reinforced polymer frame** combines lightness and strength, making the weapon easy to handle and durable. The **forged carbon steel slide** guarantees robustness and mechanical reliability, even under repeated use.

Safety and reliability

The PX-5.7 is equipped with an **integrated trigger safety** and a **firing pin block**, two devices which make handling safer while maintaining the fluidity of use essential in sport shooting.

Ergonomics and modernity

The textured grip and straight trigger guard ensure optimal control. Compatibility with reflex sights and other accessories thanks to the lower rail reinforces the adaptability of this model to the needs of contemporary shooters.

- **line of sight:** 187.6 mm
- **trigger weight:** 1500 ±100 g
- **finish:** matte black
- **grip:** textured polymer
- **accessories included:** ABS case, 2 chargers
