Designed to maximize efficiency, this high-capacity 18- or 20-round 9x19mm magazine for Taurus PT92/PT99 features Mec-Gar's anti-friction technology, minimizing friction for fast, smooth reloads. Its high-quality steel construction provides durability and reliability, even under the most demanding shooting conditions. With its anti-friction coating, this magazine reduces the risk of jamming, ensuring consistent and smooth operation.

This Mec-Gar magazine for Taurus PT92/PT99 is ideal for shooters looking for reliability and ease of use. Thanks to its anti-friction coating, the feed is smooth, making it a major asset during quick reloads or in intensive shooting situations. Its high capacity of 18 or 20 rounds allows you to extend your sessions without having to reload frequently, an advantage for sport shooting enthusiasts.

Mec-Gar, recognized for the quality of its magazines, ensures here a robust product that is perfectly compatible with your Taurus PT92/PT99, thus optimizing your shooting performance with durable and practical equipment.

The drop protection system reduces shock and magazine failure when dropped on hard surfaces, such as in self-defense or competition. The floor plate design allows it to fit better into competition boxes than other extended capacity floor plates.

Taurus PT-92 Pistol: The Brazilian Beretta 92.

The Taurus PT92 is a 9mm caliber semi-automatic pistol that stands out for its reliability, precision and robust design. Inspired by the famous Beretta 92, this model has been adapted and produced by Taurus in Brazil, with notable modifications to meet the needs of different users.

One of the unique features of the Taurus PT92 is its ambidextrous safety mechanism, providing a comfortable grip for both left- and right-handed shooters. The integrated safety allows for precise and reliable control of the weapon, increasing safety when handling it. The PT92 is also appreciated for its robustness thanks to a stainless steel construction, which gives it great durability and increased resistance to harsh conditions.
