Give your dog controlled freedom with the CANIFUGUE FUG1030, a modern and effective solution to prevent escapes.

The CANIFUGUE FUG1030 from NUM'AXES is an innovative anti-escape system that allows you to define a secure perimeter for your dog, whether it is a fenced or unfenced area. By installing an antenna wire around the authorized area, a radio signal is emitted from a transmitter box. When your dog equipped with the receiver collar approaches the boundary, it receives an audible warning followed, if necessary, by electrostatic stimulation, encouraging it to stay in the defined area. This system is ideal for keeping one or more dogs free within a perimeter that you define.

SEO Highlights:

- **Invisible Fence** : Establish a secure perimeter without installing physical barriers.
- **Adaptability** : Suitable for all types of terrain, fenced or not.
- **Progressive education** : Audible warnings followed by electrostatic stimulations for gentle correction.
- **Multi-dog management** : Ability to manage an unlimited number of receiver collars.
- **Easy Installation** : Quick and easy placement of the antenna wire around the desired perimeter.

Technical characteristics:

- **Signal Range** : Up to 800 meters of antenna wire to cover large areas.
- **Receiver Collar** : Waterproof and adjustable, suitable for different sizes of dogs.
- **Correction Levels** : Multiple adjustable stimulation levels to suit each dog's sensitivity.

- **Power supply** : Mains powered transmitter box; receiver collar operates with a 3V CR2 lithium battery.
- **Compatibility** : Works with all NUM'AXES Education anti-escape fences.

The CANIFUGUE FUG1030 anti-escape system is designed to give your dog the freedom to move around while ensuring its safety. By defining a precise perimeter, you protect your pet from external dangers such as roads or prohibited areas. The lightweight and waterproof receiver collar ensures optimal comfort for your dog, even in rainy weather. The adjustable correction levels allow the system to be adapted to the sensitivity and behavior of each animal, ensuring respectful and effective training. In addition, the installation of the system is simple and quick, requiring no special skills. By choosing the CANIFUGUE FUG1030, you are opting for a reliable and durable solution, acclaimed by many owners concerned about the well-being of their four-legged friend.
