## Improve your dog's behavior with the CANICOM 1000, a high-performance training system offering a range of up to 1000 meters.

The CANICOM 1000 orange from NUM'AXES is a recall collar designed to effectively correct your dog's bad habits. With a range of up to 1000 meters, depending on the terrain, it allows for reliable remote communication. The ergonomic remote control can control one or two collars simultaneously, offering increased flexibility for owners of several dogs. The controls are intuitive thanks to the LCD screen and direct access keys. A "Booster" button is also available for emergency situations requiring a quick reaction.

- **Extended Range** : Up to 1000 meters, ideal for wide open spaces.
- **Multi-Dog** : Control up to two collars with just one remote.
- **Personalization** : 15 levels of stimulation to adapt to the sensitivity of each dog.
- **Emergency function** : "Booster" button for quick correction in critical situations.
- **Ergonomics** : Remote control with LCD screen and direct access keys for simplified use.

The CANICOM 1000 orange training collar is the ideal tool for owners who want to train their dog remotely. With a range of 1000 meters, it offers freedom of movement while maintaining effective control. The remote control can manage up to two collars, allowing the simultaneous training of several dogs. The 15 adjustable electrostatic stimulation levels and the audible warnings ensure adaptation to the specific needs of each animal. The "Booster" function offers immediate correction in case of emergency, guaranteeing the safety of your companion.

- **Extended Range** : Up to 1000 meters, ideal for wide open spaces.
- **Multi-Dog** : Control up to two collars with just one remote.
- **Personalization** : 15 levels of stimulation to adapt to the sensitivity of each dog.
- **Emergency function** : "Booster" button for quick correction in critical situations.
- **Ergonomics** : Remote control with LCD screen and direct access keys for simplified use.
