Maximize the capacity and smoothness of your SIG Sauer P226 with Mec-Gar 18 or 20 round magazines, equipped with an anti-friction coating.

Its **bronze finish** gives it a unique aesthetic and additional protection against wear and corrosion. Made of high-quality steel and equipped with a durable polymer follower, this magazine ensures smooth and reliable feeding. Perfect for professionals, law enforcement or sport shooters, this magazine is an essential choice to maximize the performance of your SIG P226.

Technical characteristics:

- **Compatibility:** SIG P226
- **Caliber:** 9mm
- **Capacity:** 15 or 17 shots
- **Material:** Heavy duty steel for optimum durability
- **Finish:** Elegant, corrosion-resistant bronze
- **Follower:** High performance polymer for smooth feeding
- **Spring:** Stainless steel for increased longevity
- **Baseplate:** Ergonomic design for easy reloading

Increased capacity for optimal performance

The **SIG Sauer P226 Mec-Gar magazine** offers an extended 18 or 20-round capacity, ideal for reducing shooting interruptions and maximizing your performance. This choice is perfect for extended sessions, competitions or intensive training.

Anti-friction coating for smooth feeding

The **anti-friction** coating applied to these magazines significantly improves the smoothness of internal movements, ensuring fast and reliable cartridge feeding. This special treatment also reduces wear and extends the life of the magazine.

Robust materials and exceptional durability

Made from **high-quality steel** , these magazines withstand the stresses of intensive use. The stainless steel spring and high-strength polymer follower ensure consistent performance, even after thousands of firing cycles.

Ergonomics and perfect compatibility

Designed specifically for the **SIG Sauer P226** , these magazines fit perfectly, ensuring a secure fit and easy handling. The ergonomic baseplate facilitates fast and efficient reloads.

Two capacities to meet your needs:

- **18 shots:** Expanded capacity while maintaining a compact profile.
- **20 shots:** Integrated extension for maximum autonomy without compromising on handling.

Additional features:

- **Increased Reliability:** Reduces firing incidents with stable power supply.
- **Simplified maintenance:** Design allowing quick and efficient cleaning.
- **Versatility:** Ideal for sport shooting, tactical or professional use.

An essential accessory for SIG Sauer P226 enthusiasts

Whether for competitions or training, the **Mec-Gar SIG Sauer P226 18 and 20 round magazines** guarantee reliable performance and a capacity adapted to all your requirements.
