Maximum capacity and ultimate performance: equip your SIG Sauer P226 with the Mec-Gar Competition 20-round magazine, designed for competition and intensive shooting.

The **Mec-Gar Competition magazine for SIG Sauer P226** , calibrated in **9mm** with a capacity of **20 rounds** , is specially designed for competitions and intensive shooting sessions. Its **robust steel** construction and **anti-friction coating** guarantee a smooth and reliable feeding, even in the most demanding conditions. Equipped with an integrated extension to maximize the capacity, this magazine ensures increased autonomy while maintaining an ergonomic profile. Perfect for professional and sport shooters, it combines reliability and high performance.

Technical characteristics:

- **Compatibility:** SIG Sauer P226
- **Caliber:** 9mm
- **Capacity:** 20 shots
- **Material:** High quality steel for optimum strength
- **Finish:** Anti-friction coating for fast, smooth feeding
- **Built-in Extension:** Increases capacity while maintaining perfect balance
- **Follower:** High performance polymer to prevent firing incidents
- **Spring:** Stainless steel for increased longevity
- **Baseplate:** Extended profile for easy handling and fast reloading

A charger designed for competition

The **SIG Sauer P226 Mec-Gar Competition magazine** offers an increased 20-round capacity, perfect for competitions where every shot counts. With its careful construction and high-end components, it guarantees consistent and reliable performance.

Anti-friction coating: speed and fluidity

The **anti-friction** coating significantly reduces internal resistance, ensuring fast and flawless feeding. This special treatment also extends the life of the charger, even under intensive use.

Rugged construction for consistent performance

Made from **high-grade steel** , this magazine is designed to withstand the stresses of prolonged firing. Its stainless steel spring and high-strength polymer follower ensure consistent, reliable feeding with every shot.

Built-in expansion for maximum capacity

With its built-in extension, this Mec-Gar charger maximizes capacity while maintaining optimal balance for comfortable handling. It offers extended runtime, reducing interruptions during competitions or training.

Additional features:

- **Reliable performance:** Reduced incidents thanks to optimized design.
- **Easy maintenance:** Designed for quick and efficient cleaning.
- **Ergonomic design:** Easy handling for quick reloading.
- **Versatility:** Suitable for all situations, from sport shooting to intensive training.

An essential accessory for competitive shooters

Whether you're competing or training, the **SIG Sauer P226 20-Round Mec-Gar Competition Magazine** delivers the reliability and capacity you need to excel with every shot.
