LE766	Lee tension finger #TR2443	Vente libre	1.00 € incl. tax

Lee Precision tension finger for Pro 1000.

These tension fingers are essential replacement parts for Lee Precision Pro 1000 progressive reloading presses. They ensure consistent and reliable case feeding, contributing to smooth and efficient reloading operations. Precision-manufactured, these components ensure optimum performance from your reloading equipment.

Tension fingers play a crucial role in maintaining the correct pressure on the cartridge cases during the reloading process, ensuring consistent feeding and reducing the risk of jamming or misalignment. Regular replacement of these components is recommended to maintain the efficiency and longevity of your Pro 1000 press. Installing tension fingers is quick and easy, allowing users to minimize downtime and maximize productivity during reloading sessions. By choosing genuine Lee Precision spare parts, you ensure compatibility and optimum performance of your equipment, while benefiting from the brand's recognized expertise in the reloading field.
