LE762	LEE, SIX PACK PRIMER SLIDE & RETAINER RING # BP5353	Vente libre	3.00 € incl. tax

Keep your Six Pack Pro press running smoothly with the Lee Precision Retaining Ring, designed to securely hold small diameter bushings.

This retaining ring is specifically designed for Six Pack Pro progressive reloading presses manufactured in 2024 and earlier. It mounts on top of the holder and is essential when reloading cases with a rim diameter of less than 11 mm (0.430"). Precision-made, this accessory ensures consistent case feeding, contributing to smooth and efficient reloading operations.

The retaining ring plays a crucial role in holding small diameter cartridge cases in place during the reloading process, ensuring consistent feeding and reducing the risk of jamming or misalignment. Regular replacement of this accessory is recommended to maintain the efficiency and longevity of your Six Pack Pro press. Installing the retaining ring is quick and easy, allowing users to minimize downtime and maximize productivity during reloading sessions. By choosing genuine Lee Precision spare parts, you ensure compatibility and optimum performance of your equipment, while benefiting from the brand's recognized expertise in the reloading field.
