LE761	Micrometer Adjust Screw - #92215	Vente libre	29.00 € incl. tax

Maximize your reloading accuracy with the Lee Precision Micrometer Adjustment Screw, designed for precise adjustment of bullet depth.

This micrometer adjustment screw replaces the standard adjustment screw on Lee bullet seating dies. It provides infinite adjustment of bullet seating depth, with easy-to-read laser graduations representing .001-inch increments. The integrated friction ring eliminates annoying clicks, providing smooth, precise adjustment. By saving your settings, you can easily reproduce them for future reloading sessions.

The Micrometer Adjustment Screw makes the reloading process easier by allowing precise and repeatable adjustments to bullet seating depth. Its installation is simple and can be transferred between different Lee bullet seating dies. However, its affordable price will encourage you to equip each die for maximum efficiency. By choosing genuine Lee Precision accessories, you ensure compatibility and optimum performance of your equipment, while benefiting from the brand's recognized expertise in the field of reloading.
