Optimize the priming process of your Pro 1000 reloading press with the Lee Precision Primer Chute Assembly, ensuring smooth, reliable primer feeding.

This assembled primer chute is specifically designed for Lee Precision Pro 1000 progressive reloading presses. It includes the chute and pin, as well as two primer slides, ensuring a consistent feed of primers during your reloading sessions. Easy to install, this assembly ensures optimum performance from your equipment, reducing interruptions and improving process efficiency.

The assembled primer chute plays a crucial role in maintaining a consistent feed of primers, reducing the risk of jamming or misalignment.

Its periodic replacement is recommended to ensure the longevity and efficiency of your reloading press. Installation of this assembly is quick and easy, allowing users to minimize downtime and maximize productivity during reloading sessions.

By choosing genuine Lee Precision spare parts, you guarantee the compatibility and optimal performance of your equipment, while benefiting from the brand's recognized expertise in the field of reloading.
