LE751	Case Grip Adapter - #92149	Vente libre	15.00 € incl. tax

Optimize your reloading sessions with the Lee Precision Case Grip Adapter, designed to provide an ergonomic and secure grip when packing cases.

The Case Grip Adapter is a must-have accessory for reloaders looking to improve their comfort and efficiency. Compatible with popular priming tools that accept Auto Prime shell holders, including the Lee Auto Prime and Auto Bench Prime, this adapter provides a comfortable grip on cases during trimming and chamfering operations. Used in conjunction with your case length gauge, knurled shell holder, and locking cutter, it makes the reloading process easier by allowing for quick changes between cases without having to loosen the shell holder between each piece.

Technical characteristics:

- **Compatibility** : Installs on all popular boot tools that accept Auto Prime shell holders, including Lee Auto Prime and Auto Bench Prime.
- **Ergonomics** : Provides a comfortable grip for holding sockets during cutting and chamfering sessions.
- **Efficiency** : Allows you to quickly switch from one socket to another without having to loosen the knurled shell holder between each piece.

The Lee Precision **Case Grip Adapter** is designed to improve comfort and efficiency when packing cases. By easily installing onto priming tools such as the Lee Auto Prime and Auto Bench Prime, this adapter provides an ergonomic grip, reducing fatigue during long reloading sessions.

Combined with tools such as the Case Length Gauge, Knurled Shell Holder and Locking Cutter, it allows for a smoother and faster reloading process. Lee Precision's quality manufacturing ensures optimum durability and performance, making this adapter a valuable addition to your reloading equipment.
