LE742	Handgun Micrometer Adjust Screw - #92150	Vente libre	29.00 € incl. tax

Optimize your reloading with Lee Precision's Micrometer Screw, providing precise and effortless adjustment of bullet depth for your pistol cartridges.

The Lee Precision Pistol Micrometer Screw replaces the standard adjustment screw on your bullet sinking die, allowing for infinitely precise adjustment of the depth of sink. The easy-to-read laser graduations represent 0.001 inch, providing optimum accuracy for superior reloading performance. The integrated friction ring eliminates annoying clicks, ensuring a smooth, seamless adjustment. Compatible with all Lee pistol bullet sinking dies, this screw is an essential addition for any reloader looking to improve the consistency and quality of their ammunition.

The Lee Precision **Pistol Micrometer Screw** is designed to give reloaders complete control over bullet seat depth. Replacing the standard adjustment screw on your seat die, this micrometer screw allows for precise adjustments with laser graduations representing 0.001 inches.

The integrated friction ring ensures smooth adjustment, eliminating clicks that can complicate the fine-tuning process. Compatible with all Lee Precision pistol bullet dies, this accessory is ideal for those looking to improve the consistency and accuracy of their reloaded ammunition.

Made of high quality steel, the micrometer screw guarantees a long service life and resistance to wear, even during intensive use. With this tool, Lee Precision continues to provide innovative reloading solutions, meeting the expectations of the most demanding reloaders.
