LE719	6 Cavity Round Ball Mold .490 - #91711	Vente libre	99.00 € incl. tax

Produce perfectly spherical bullets for your muzzleloaders with the Lee Precision .490 6-Cavity Mold.

The Lee Precision .490 6-Cavity Bullet Mold is specifically designed to quickly produce .490 caliber spherical bullets, ideal for black powder firearms. Designed for high yield and perfect consistency, it is a must-have choice for traditional shooting enthusiasts.

- Bullet caliber: .490 (spherical).
- Material: Strong and lightweight aluminum alloy.
- 6-cavity design for fast, consistent production.
- Quick heating and easy demolding.
- Compatible with standard Lee Precision grips (sold separately).
- Ideal for black powder and muzzleloading weapons.

The Lee Precision .490 6-Cavity Bullet Mold is designed for traditional shooters who value quality and efficiency. It produces accurate, consistent spherical bullets optimized for muzzleloading firearms.

Made of high quality aluminum alloy, this mold heats up quickly and offers excellent wear resistance, even after prolonged use. The six cavities allow for accelerated production, ideal for reloaders who want to produce in large quantities while maintaining perfect consistency.

Each mold is carefully calibrated to ensure that the projectiles meet exact dimensions, ensuring optimum compatibility and performance with your weapon. This model is compatible with Lee Precision grips (sold separately) for convenient and ergonomic use.

To maximize the life and performance of your mold, the use of high quality sinkers and a mold lubricant is recommended.
