Ideal for reloading jacketed bullets into necked cases.

Set of 2 tools for **rifles with shrink-fit cases** , designed for reloading jacketed bullets. Includes a full-length resizing die with decapping rod and a seating die with rod for pointed bullets.

- **Case type:** bottleneck cases
- **Use:** jacketed bullets
- **Tool 1:** Integral resizing die + decapping rod + neck expander
- **Tool 2:** Seater with rod for pointed balls
- **Thread:** standard 7/8x14
- **Recommendation:** Use a separate expander for lead bullets.

The **Lyman Rifle 2-piece die set** is designed for rifle reloaders seeking a reliable and precise solution for **narrow-case** calibers. It offers full resizing and controlled seating, perfect for producing consistent ammunition in all conditions.

Full recalibration and controlled expansion

The first tool is a **full-length resizing die** with an **integrated bottle opener** and a neck **expander button** . It ensures a return to the original dimensions while preparing the neck for bullet insertion.

Precise seating with special shaft for pointed balls

The second tool allows for **consistent bullet placement** , with a stem adapted for pointed projectiles. It guarantees a stable base, essential for shot consistency and ammunition reliability.

Designed for jacketed bullets - lead compatible with accessory

This kit is **ideal for jacketed bullets** . For lead bullets, the addition of a **dedicated neck expander** is recommended (sold separately).

FAQ

- **Is this game suitable for lead balls?**
  Not directly. It is advisable to add a **neck expander** for lead projectiles.
- **What type of cases can be resized?**
  Only **rifle cases with a narrow neck** .
- **Does this game include a rod for pointed balls?**
  Yes, a **specific seat rod** is included to optimize the seating of profiled projectiles.
