Quickly and efficiently check the quality of your ammunition with the Lyman Ammo Checker™ single caliber gauge, the essential tool for optimal performance.

The Lyman Ammo Checker™ Gauge is designed to verify the quality and consistency of your ammunition, whether reloaded or manufactured. Machined from solid aluminum and cut with custom tools to SAAMI chamber tolerances, it allows you to confirm that your cartridges will fit perfectly in your firearm's chamber. Simply insert your cartridge into the gauge and if it fits properly, it will chamber seamlessly in your firearm.

The Lyman Ammo Checker™ Single Gauge is an essential tool for any reloader who cares about the quality of their ammunition. By verifying that each cartridge meets critical chamber dimensions, this gauge ensures smooth chambering and optimum performance from your ammunition.

Whether you're shooting reloaded or manufactured ammunition, the Ammo Checker™ helps you quickly identify potential problem rounds, ensuring trouble-free shooting sessions. Its 6061 T6 aircraft-grade aluminum construction provides exceptional durability, while its bright orange anodized finish makes it easy to spot on your workbench.

Available in multiple calibers, this gauge adapts to your specific needs, making it a valuable addition to your reloading equipment.
