- **Available channels:** 8 channels (2 French and 6 European)

The **CANICOM GPS 2 additional tracking collar** is an essential tool for dog owners who want to combine precise tracking with effective training. Equipped with a latest-generation high-sensitivity GPS/GALILEO module, this collar ensures real-time location with precision improved.

Main features:

- **High-precision GPS location:** Thanks to its GPS/GALILEO module, the collar transmits your dog's position every 3 seconds, allowing you to track it up to a distance of 15 km.
- **Long Range Training Function:** The collar integrates training options such as beep, vibration and stimulation, with a range of up to 3 km. These features make it easy to recall and correct unwanted behaviors.

- **Enhanced Safety:** High visibility LEDs are built into the collar, which can be activated at any time to locate your dog in low light conditions.
- **Robustness and waterproofness:** Designed to withstand the most demanding environments, the collar is robust and waterproof to immersion (IP67 standard), ensuring optimal durability.
- **Wide Compatibility:** This collar is compatible with CANICOM GPS (2nd generation with white keyboard markings and remote control updated to version 3.11) and CANICOM GPS 2 systems, offering flexibility of use depending on your current equipment.
