- **Weight:** 280 g
- **Dimensions:** 86 x 45 x 45 mm

High-precision real-time GPS tracking

The **CANICOM GPS 2 collar** uses **GPS, GALILEO, BDS, and GLONASS** technologies for fast and reliable location tracking. It transmits data every **3 seconds** , with a **maximum range of 15 km** . The interface displays the **distance between the owner and the dog** , as well as the **dog's status** (moving or stationary).

Integrated long-range education

In addition to location tracking, this collar offers a **comprehensive training** function with a range of up to 3 km: audible beep, vibration, and electrostatic stimulation. These features make **recall easier** or **behavior correction** safe and effective.

Robust, waterproof and designed for outdoor use

Weighing **280g** , this model is designed for **active or hunting dogs** . It is **waterproof** (IP67) and withstands the most demanding field conditions.

Enhanced visibility with integrated LEDs

The **GPS 2 collar** is equipped with **high-visibility LEDs** that can be activated remotely. These make it easier to locate the animal in the dark or in dense environments.

Battery life and fast charging

Its **3200 mAh lithium battery** provides **up to 30 hours of battery life** depending on usage. The **included magnetic charger** allows for safe and quick recharging.

Wide and scalable compatibility

This collar is **compatible with CANICOM GPS systems (2nd generation)** provided the **remote control is updated** to software version 3.1l, as well as with all **CANICOM GPS 2 systems** . It allows **tracking of up to 20 dogs** simultaneously.

Features via mobile app

Thanks to the **CANICOM GPS application** , you benefit from:

- **Live mapping:** map or satellite
- **Creation of virtual fences** with alerts in case of exit
- **Sharing location** with other users
- **Route calculation** to the dog
- **Bluetooth reconnection and automatic sync**

Box contents

- **1 CANICOM GPS 2 collar** with GPS/GALILEO module
- **1 magnetic charger**
- **2 pairs of electrodes** (short and long)
- **1 user guide**

FAQ

Is this collar compatible with my old CANICOM GPS?

Yes, provided that your CANICOM GPS remote control is equipped with software version 3.1l minimum (keyboard with white markings).

How many dogs can I track with this collar?

Up to 20 collars can be paired with a single CANICOM GPS 2 remote control for multi-dog tracking.

What is the battery life of the collar?

Up to 30 hours depending on the settings. It recharges easily via the included magnetic charger.
