ET3285	LAMPE TACTIQUE ESP ARTAX - 1900 lum	Vente libre	12	25.4	129	1900	Rechargeable	92.00 € incl. tax

A sturdy rechargeable lamp

- 6061-T6 aluminum body
- 1900 Lumens and 11,175 candela
- Lighting distance 211m
- 5 lighting modes (4 intensity levels + strobe mode)
- 18650 rechargeable battery with USB-C cable
- Minimum battery life: 4 hours
- LED charging indicator
- IP68 waterproof rating (Immersion up to 2m)
- Supplied with its battery, USB-C cable, wrist strap and 2 replacement O-rings.

- Textured body for a strong grip even with wet hands.
- Lamp head with pointed ends
- Switch on the back of the body
- Removable belt clip

The clever design of the rear cap prevents accidental activation of the switch. The rubber switch is easy to operate, even while wearing gloves.

The switch located on the side of the lamp head is used to select the lighting modes. These modes follow this order:

- 100%, 4-hour battery life
- 50% battery life, 5.2 hours
- 15%, 7.5 hour battery life
- 0.5% autonomy of 157 hours

The ARTAX has a battery level indicator light:

- Green: 100 - 70%
- Orange: 70 - 30%
- Red: 30 - 10%
- Flashing red: Critical level (10 - 1%)

The lamp is also equipped with a charging indicator light:

- Red: The battery is charging
- Green: The battery is fully charged
- Orange: Battery incorrectly positioned or malfunction

At the end of the lamp is the tactical switch that allows the ARTAX to illuminate at 100% or in strobe mode. A light press activates the light as long as you hold the switch down (tactical mode). A quick, light double press activates strobe mode. When the switch is fully depressed, the light illuminates continuously according to the selected mode.
