Wireless virtual fence to keep your dogs safe and free.

The **CANIFUGUE FUG1034** from **Num'Axes** is a practical and modular **wireless anti-escape system** to secure one or more dogs without a physical fence.

- **Installation:** Wireless - quick and easy
- **Modes:** anti-escape or zone protection
- **Coverage area:** adjustable from 2 to 120 m
- **Number of collars:** unlimited per terminal
- **Stimulation levels:** 8 levels + no stimulation mode
- **Warning:** beep or vibration
- **Collar battery life:** up to 14 days - recharges in 1 hour
- **Battery life:** up to 40 days on batteries - unlimited mains power
- **Waterproofing:** IP67 collar - IP54 terminal
- **Compatibility:** up to 8 terminals per collar

Dual mode: anti-escape or restricted zone

This **2-in-1 system** creates a **virtual fence** or protects a specific area depending on the mode chosen:

- **Anti-escape mode:** the dog moves freely within a defined perimeter around the boundary marker. It is warned by a beep or vibration, then stimulated if it tries to cross the boundary.
- **Zone protection mode:** used to restrict access to an area (vegetable garden, gate, etc.). The terminal becomes a beacon that should not be approached.

Wireless and installation without any work involved

The **CANIFUGUE FUG1034** operates wirelessly, without buried cables. Simply **place the unit** , power it (mains or batteries), and configure the **protection radius** between 2 and 120 meters. Its

compact size and **light weight** allow for fixed or mobile use, at home or on vacation.

Unlimited multi-dog management

The system accepts an **unlimited number of collars** per terminal. Each collar has **8 adjustable stimulation levels** and a **no-stimulation mode** . The warning (beep or vibration) is selectable directly on the collar.

Reliable battery life and fast charging

The **IP67 waterproof collar** weighs only 59g (excluding the strap) and offers **up to 14 days of battery life** . It recharges in **1 hour** using the included charger. The **IP54 waterproof beacon** operates on mains power or 3 AA batteries (not included), with **up to 40 days of battery life** .

Complete, expandable and secure

The **CANIFUGUE FUG1034** includes everything you need to get started, with the option to add **extra collars or terminals** at any time. Three **safety systems** are integrated to prevent prolonged or accidental stimulation.

Package contents

- **1 CANIFUGUE FUG1034 anti-leak terminal**
- **1 rechargeable collar** + black polyurethane strap
- **1 charger** + EU/UK adapters
- **2 pairs of electrodes** (short and long)
- **1 magnetic key**
- **1 user guide**

FAQ

Does the system work indoors?

Yes, by placing the terminal on the ground and setting the range to the minimum, you create an area approximately 4 m in diameter.

Can I add additional collars or terminals?

Yes, the system is scalable: it accepts an unlimited number of collars and up to 8 terminals coupled to the same collar.

What is the battery life of the collar?

Up to 14 days depending on usage, with a fast recharge in 1 hour. The charge indicator makes it easy to monitor the remaining battery life.
