WBPA135	WBP - Standard high polymer handguard	Vente libre	34.00 € incl. tax

Robust and lightweight, the WBP Standard high polymer handguard optimizes grip while ensuring excellent heat dissipation.

- Compatible for AK, AKM, Minijack Wood

Designed for AK platforms, the WBP Standard high polymer handguard combines lightness and strength. Its reinforced structure ensures increased durability while maintaining a reduced weight for easier handling. Integrated grooves improve grip, providing stability and comfort during extended firing.

Design and materials

The WBP Standard high handguard is made of reinforced polymer, providing excellent mechanical strength while limiting the overall weight. This material also ensures good resistance to the heat generated during intensive shooting, thus protecting the shooter's hand and extending the life of the handguard.

Optimized ergonomics

The integrated grip grooves provide a firm, stable grip, even in wet or stressed conditions. Its shape is specially designed to accommodate dynamic movements and ensure precise weapon control.

Compatibility and installation

Designed to perfectly fit traditional AK platforms, the WBP Standard handguard installs easily without requiring major modifications. It ensures perfect compatibility with standard systems while maintaining a solid attachment.
