Robust and ergonomic, the WBP Standard fixed polymer stock ensures stability and comfort for precise and controlled shooting.

The WBP Standard fixed polymer stock is designed for AK platforms, combining strength, lightness and comfort. Its reinforced polymer structure ensures excellent resistance to shocks and extreme conditions while providing a natural grip. Its ergonomic shape allows optimal support of the weapon for stable and precise shots.

Design and materials

Made of high-quality reinforced polymer, the WBP Standard stock offers the perfect balance between strength and lightness. This material is resistant to shocks, extreme weather conditions and chemicals commonly used in gun maintenance.

Ergonomics and comfort

The stock is designed to provide a natural and comfortable shooting position. Its integrated cheek rest improves shooting stability and allows perfect alignment with the sights. The non-slip butt plate ensures excellent support against the shoulder, even in dynamic conditions.

Compatibility and installation

Compatible with standard AK platforms, the WBP stock installs easily without the need for specific modifications. It offers a solid attachment for maximum reliability during intensive shooting sessions.
