A63094	22 cm (VMP-2M)	Vente libre	22	6.03	21.00 € incl. tax
A63095	32 cm (VMP-2D & VMP-2MD)	Vente libre	32	6.03	24.00 € incl. tax

Improve the accuracy of your VMP-2 replica with this high-quality inner barrel extension!

The **VMP-2 Inner Barrel Extension** is a **precision accessory** designed for the **Vorsk VMP-2** replica. Made of **stainless steel**, this inner barrel has a diameter of **6.03 mm**, ideal for improving the **accuracy** and **range** of your shots. Installation is quick and easy, allowing you to replace the original barrel without any additional modifications.

The 22cm version is suitable for the VMP-2M model.

The 32cm version is suitable for the VMP-2D and VMP-2MD models.

Why Choose This Internal Canon Extension?

Upgrading the inner barrel is one of the most effective improvements for airsoft replicas. A reduced diameter of **6.03 mm** ensures better **sealing** and **increased BB stability** during firing, thus reducing dispersion and increasing **accuracy**.

Technical Specifications:

- **Compatibility:** Specifically designed for Vorsk **VMP-2** models. The 22cm extensions are for the VMP-2M and the 32cm extensions for the VMP-2D and VMP-2MD
- **Material:** **Stainless steel** for optimal durability and corrosion resistance.
- **Internal diameter:** **6.03 mm**, promoting better air compression.
- **Installation:** Direct replacement of the original barrel without the need for additional modifications.

Benefits :

- **Improved Accuracy:** The optimized internal diameter ensures a more stable trajectory for the balls.
- **Increased Range:** Better air compression results in an increased effective range.

- **Durability:** The stainless steel construction ensures a long service life, even under intensive use.
- **Easy Installation:** Designed for quick and easy mounting on the VMP-2 replica.

1. Is this extension compatible with models other than the VMP-2?

No, this inner barrel extension is specifically designed for the Vorsk VMP-2 model.

The 22cm version is suitable for the VMP-2M model.

The 32cm version is suitable for the VMP-2D and VMP-2MD models.

2. Does the installation require any special tools?

No, the installation is simple and requires no special tools. The barrel can be replaced directly without modifications.

3. Does this extension increase the power of the replica?

Primarily, this extension aims to improve **accuracy** and **range** . A slight increase in velocity may be observed, but this will depend on the other components of your replica.

4. Do I need to adjust the hop-up after installation?

Yes, it is recommended to readjust the hop-up after installation to optimize shooting performance.

5. How to maintain this internal canon?

Regular cleaning with a rod and a lint-free cloth is recommended to remove residue and maintain optimal performance.
