Bright optics designed for hunting from a blind or in the marsh.

The **WALDBERG 9x63** is a scope designed for **waterfowl hunting** . Its large objective lens and precise adjustment guarantee optimal visibility in low-light conditions.

- **Magnification:** 9x
- **Objective:** 63 mm
- **Tube diameter:** 30 mm
- **Parallax correction:** yes
- **Adjustment:** 1 click = 1/4 MOA
- **Focusing ring:** yes
- **Length:** 38 cm
- **Weight:** 787 g

An optic adapted to demanding shooters

Featuring a large **63mm objective** lens, this scope captures maximum light, ensuring **optimum clarity even in low light** . Its **30mm tube diameter** ensures better light transmission and increased shock resistance.

The **parallax correction system** helps maintain a perfectly sharp image, avoiding any offset between the reticle and the target. Combined with **precision adjustments at 1/4 MOA per click** , this scope is ideal for **long-range precision shooting** .

Optimal user comfort

Weighing in at **787g** , this scope combines **robustness and balance** , reducing fatigue during long shooting sessions. Its **focus ring** allows for quick and smooth adjustment, ensuring precise

targeting in all circumstances.

Care instructions

To maintain the performance of your scope, clean the lenses regularly with a **microfiber cloth and a solution specific to optics** . Store your scope in a **protective case** to avoid dust and humidity.
