Discover the Stalon VR silencer, designed to provide maximum sound reduction for firearms, combining compactness and efficiency.

The Stalon VR is a silencer specially developed for hunting and shooting weapons, offering performance equivalent to that of larger and heavier models. Its compact and lightweight design ensures optimal handling without compromising efficiency. With a noise reduction of up to 34 dB for the .223 caliber, it guarantees a more comfortable and discreet shooting experience.

Made from high-quality anodized aluminum, the Stalon VR is both robust and durable, capable of withstanding the most demanding shooting conditions. Its unique telescopic design allows for an extension of 139 mm beyond the barrel, with an overall length of 191 mm, of which 52 mm covers the barrel for better weight distribution. The 41.5 mm diameter on the barrel side and tapering to 39 mm at the front guarantees a compact and discreet silhouette, perfectly suited to hunting and sport shooting.
