GBB Hi-Capa 5.1 performance-oriented airsoft pistol: full compatibility, competition grip and smooth cycle.

The HERACLES **Hi-Capa 5.1** Lancer Tactical GBB replica is designed for players who want a reliable, easily customizable base suitable for dynamic shooting.

- **Operation:** Gas Blowback (GBB)
- **Compatibility:** 100% compatible with **Tokyo Marui Hi-Capa** parts — wide range of upgrades available
- **Slide:** Lightweight, CNC-machined aluminum cylinder head with perforations for smooth cycling
- **Frame:** Aggressive textured grip offering excellent traction, even with gloves
- **Safety:** Ambidextrous lever with functional beaver tail
- **Rail:** Lower Picatinny rail for lamp/laser
- **Blowback:** realistic, smooth bolt action
- **Magwell:** integrated, facilitates rapid reloading
- **Relaxation:** skeletal competition type
- **Hop-up:** adjustable
- **Magazine:** gas, capacity 28 BBs
- **Length:** 240 mm
- **Weight:** 1030 g
- **Included:** hard case

The **HERACLES Hi-Capa 5.1** is based on a simple but effective recipe: an openwork aluminum slide to reduce moving mass, an aggressive grip for impeccable hold and an integrated magwell to speed up reloads in real-life situations.

This platform, 100% compatible **with Tokyo Marui Hi-Capa** , facilitates upgrades—sights, triggers, springs, and internal parts. Delivered in a **carrying case** , it's ready to join your training sessions or competitions.

Ergonomics & feel

The grip is immediately stable thanks to the pronounced stippling; the skeletonized trigger promotes clean and repeatable breaks while the blowback provides a credible recoil sensation, appreciable in CQB as well as in sport shooting.

Interview & recommendations

Recommendations: Use **Green Gas** or a gas specifically designed for GBBs, clean the barrel regularly, and moderately lubricate the seals and nozzle. Check the condition of wear parts after intensive use to ensure longevity.

FAQ

What gas should I use with the HERACLES Hi-Capa 5.1?

Use **Green Gas** or a gas designed for GBB; follow the manufacturer's recommendations to preserve the seals and optimize lifespan.

Is the replica compatible with Tokyo Marui Hi-Capa parts?

Yes — compatibility is advertised as **100%** , allowing for the installation of a wide range of internal and external upgrades.

What is the magazine capacity and the length of the pistol?

Gas magazine: **28 BBs** . Length: **240 mm** .

Does the replica come in a carrying case?

Yes — the HERACLES Hi-Capa 5.1 comes in a **hard case** for safe transport and storage.

How do I maintain the gun to preserve its performance?

Regular cleaning of the barrel, light lubrication of the seals and nozzle, periodic checking of wear parts (nozzle, seals, valves) and dry storage.
