Lancer Tactical Hi-Capa 4.3 GBB airsoft pistol ready for CQB and customization.

GBB Hi-Capa 4.3 Lancer Tactical replica in purple/gold color, designed for players looking for a platform that is both aesthetic, responsive and easy to upgrade.

- **Operation:** Gas Blowback (GBB)
- **Slide:** CNC machined aluminum with hexagonal cutouts for aesthetics and grip
- **Frame:** Injection-molded polymer with anti-slip stippling
- **Compatibility:** Tokyo Marui Hi-Capa 4.3 parts (wide range of upgrades available)
- **Sights:** Front/rear fiber optics, sight risers included
- **Magwell:** flared for rapid reloading
- **Relaxation:** skeletal competition style, reduced race
- **Safety:** Ambidextrous lever with functional beaver tail
- **Rail:** Lower Picatinny rail for lamp/laser
- **Magazine:** 23 rounds gas
- **Performance:** ~300-330 FPS at 0.20 g (depending on gas/temperature)
- **Thread:** 11 mm CCW (adapter possible for silencer/marker)
- Included : carrying case, RMR plate (RMR ready)

The **Stryk Hi-Capa 4.3 Violet/Gold** boasts a bold look and performance-oriented features: an openwork aluminum slide to reduce moving mass, a flared magwell for faster reloading, and a competition trigger for crisp starts.

Compatibility with the **Tokyo Marui Hi-Capa 4.3** platform opens up a wide range of customization options (sights, springs, external parts). The package includes an **RMR (RMR ready) plate** and a hard case for transport.

Ergonomics & feel

The aggressive stippling ensures a firm grip in all conditions. The combination of a lightweight slide and skeletonized trigger provides a fast cycle and a responsive shooting feel, appreciated in CQB and IPSC/Action matches.

Maintenance & adjustments

For consistent performance: use recommended **Green Gas** , clean the barrel regularly, and lightly lubricate the seals and nozzle. Advertised performance (~300-330 FPS @0.20 g) varies depending on the gas and ambient temperature.

FAQ

What type of gas should I use?

Use **Green Gas** or a gas specifically intended for GBB; avoid undocumented mixtures to preserve the life of the seals.

Does the replica accept Tokyo Marui Hi-Capa 4.3 parts?

Yes - compatibility with the **Tokyo Marui Hi-Capa 4.3** platform allows for the installation of a wide range of internal and external upgrades.

Can a silencer be fitted?

The barrel is threaded in **11 mm CCW** ; the use of an adapter (11?14 mm) allows the mounting of most airsoft silencers or tracers.

What is the charger's capacity?

Gas magazine supplied: **23 shots** (check manufacturer's reference for precise batch information).

Are the carrying case and RMR plate included?

Yes - replica delivered in a **hard case** with RMR plate included (optics not included unless otherwise specified). Check the presence and condition of the RMR plate upon receipt.
