SKU	Designation	French Law	MSRP
NUM242	Terminal Only	Vente libre	158.00 € incl. tax

Complete your Num'Axes Canifugue anti-escape system to increase the area accessible to your dog.

The **Num'Axes FUG1034 anti-escape device** allows you to **create a virtual safety zone** for your dog. Compatible with CANIFUGUE FUG1034 collars, it offers a simple and modular **wireless installation** .

- **Available modes:** anti-escape or zone protection
- **Adjustable radius:** from 2 to 120 m
- **Multi-terminal:** up to 8 terminals connected to 1 clamp
- **Power indicator:** mains or batteries
- **Battery life:** unlimited
- **Battery life:** up to 40 days (3 x LR06 - not included)
- **Waterproofing:** IP54 rated - for outdoor use
- **Dimensions:** Ø120 x H 40.5 mm
- **Weight:** 239 g
- **Color:** black / red

Two versatile operating modes

The **FUG1034 terminal** offers two configurations:

- **Anti-escape mode:** the device defines a circular perimeter that must not be crossed. The dog is warned upon approach, then stimulated if it persists.
- **Zone protection mode:** the device protects a fixed point (vegetable garden, flower bed, gate) that the dog must not approach.

Adjustable coverage area

The zone's radius is adjustable from **2 to 120 meters** by adjusting the transmission power. This signal forms a virtual perimeter that can be adapted to the terrain and needs.

Multi-terminal installation for large area

Up to **8 bollards** can be connected to a single collar to extend the safety zone. Ideal for large areas or specific installations.

Mains or battery operated

The unit operates on **mains power** (unlimited autonomy) or with **3 LR06 batteries** for up to **40 days** of autonomy. It is recommended to insert batteries even when using mains power to ensure continuity in case of a power outage.

Weather resistant

Designed for outdoor use, the terminal is **IP54 waterproof** and resistant to normal weather conditions.

Extended compatibility

The terminal is compatible with **all CANIFUGUE FUG1034 collars** , whether used individually or in a multi-dog pack.

FAQ

Does this terminal work on its own?

No, the terminal must be used with at least one CANIFUGUE FUG1034 compatible collar to create an anti-escape or protection zone.

Can I add multiple terminals to my installation?

Yes, up to 8 terminals can be associated with the same collar to extend the coverage area according to your terrain.

Which power supply should I choose for optimal use?

Ideally, the mains-powered terminal should be used with backup batteries, ensuring continuity in case of a power outage.
