The Tisas 2011 pistols feature a 17-round Double Stack magazine.

The **Tisas 2011 Carry Bull Barrel Double Stack 9x19 pistol** combines the compactness of the Carry format with the accuracy of a bull barrel and the capacity of a 17-round double stack magazine.

- **caliber:** 9x19 mm
- **total length:** 200.9 mm
- **height:** 146.4 mm
- **width:** 38.2 mm
- **barrel length:** 109 mm (4.25" bull barrel)
- **line of sight:** 150.2 mm
- **weight without charger:** 921 g ±10 g
- **weight with full magazine:** 1222.7 g ±10 g
- **magazine capacity:** 17 rounds (double stack)
- **trigger:** single action
- **trigger tail:** straight openwork
- **carcass:** forged carbon steel
- **cylinder head:** forged carbon steel
- **grip:** non-slip textured polymer
- **safeties:** ambidextrous safety catch, hammer safety, beavertail

The **Tisas 2011 Carry Bull Barrel Double Stack** is designed to offer a compact alternative to shooters looking for both performance and range. Its bull barrel, optic-ready compatibility, and 17-

round magazine make it a versatile and modern model.

Compactness and ergonomics

With a total length of 200.9 mm, this model maintains a compact size while remaining perfectly balanced. The textured grip and elongated beavertail ensure a firm and comfortable grip, even at high rates of fire. The flared magwell facilitates reloading. The 2011 (or 2K11) models use Double Stack magazines: The cartridges are staggered over two columns to increase the number of shots.

Bull Barrel Canon

The 109mm **bull barrel** is a thickened barrel made of chrome-plated forged steel. Its rigidity eliminates the need for bushings and improves accuracy by reducing vibration and shot dispersion.

Optic Ready compatibility

Designed for evolution, this model is **optic-ready** and directly accepts an RMSc red dot sight. The dovetail-mounted mechanical fiber optic sights complete this configuration.

Controls and safety

The ambidextrous safety catch, the openworked straight trigger, and the front/rear grip grooves guarantee comfort and responsiveness. The combination ensures smooth and safe shooting.

Accessories included

Supplied in a case with two 17-round double-stack chrome-finished magazines and a Flunatec maintenance kit (degreaser and lubricant), it is ready to use right out of the box.

- **Sight:** front fiber optic / black notched rear sight
- **Picatinny rail:** machined under the frame
- **Magazine well:** Flared with magwell
- **gripping ridges:** front and back
