- Comes in a case with two 17-shot magazines, a can of Flunatec degreaser and a can of Flunatec lubricant.

The **Tisas 2011 Carry Bull Barrel Full Frame** is a compact, high-end version designed for shooters seeking both maneuverability and accuracy. Its elongated frame and 4.25" bull barrel give it excellent balance for dynamic sport shooting.

Ergonomics and comfort

The full-frame receiver with a Picatinny rail allows for the mounting of accessories such as a flashlight or laser. The non-slip textured grip and magazine well with magwell ensure a firm grip

and fast reloads. The 2011 (or 2K11) models use Double Stack magazines: Cartridges are distributed across two columns to increase the round capacity.

Bull Barrel Canon

The 4.25" chrome-plated forged steel **bull barrel** provides increased rigidity and eliminates the need for bushings. This design improves accuracy, limits vibration, and ensures consistent shooting, which is appreciated by competitors.

Optic Ready compatibility

The **optic-ready** configuration allows for easy mounting of an RMR-type micro-red dot sight, providing more intuitive and rapid aiming. The fiber optic mechanical components complete this versatility.

Expanded controls and security

The enlarged magazine release button and slide catch provide smooth operation. The ambidextrous safety lever and extended beavertail enhance comfort and safety during every shooting session.

Accessories included

Each weapon comes in a case with two 17-round chrome-plated magazines, as well as a Flunatec maintenance kit (degreaser and lubricant) to ensure its longevity and reliability.

- **Sight:** front fiber optic / black notched rear sight
- **removable trigger:** interchangeable profiles
- **gripping ridges:** front and back
- **trigger guard:** textured straight
- **beaver tail:** elongated
- **chargers:** double battery chrome finish
