High-end finish with its compensator

The **Tisas 2011 Carry Bull Barrel COMP 9x19 pistol** takes the 2011 architecture and compacts it, featuring a 4.25" bull barrel and an integrated compensator for remarkable stability.

- **Magazine capacity:** 17 rounds
- **relaxation:** simple action
- **Frame material:** forged carbon steel
- **Cylinder head material:** forged carbon steel
- **Safety features:** manual safety, dog safety, beavertail handle safety

The **Tisas 2011 Carry Bull Barrel COMP** combines the compactness of a small format with the precision of a bull barrel and the efficiency of an integrated compensator. Designed for dynamic sport shooting, it ensures exemplary handling and a fast rate of fire.

Compactness and ergonomics

With its 202 mm overall length, this model stands out for its ease of handling and comfort on the range. The **textured grip** and **flared magazine well** with magwell make it easier to hold and speed up reloads. The **2011 (or 2K11) models** use **Double Stack magazines** : the cartridges are arranged in a staggered pattern over two columns to increase magazine capacity.

4.25" Bull Barrel

The compact **bull barrel** provides increased rigidity, reduces vibration, and increases accuracy. This type of barrel, thicker than a standard barrel, eliminates the need for muzzle bushing and

improves shot consistency.

Built-in compensator

The **compensator** integrated into the breech redirects some of the gases to limit the barrel's rise. The result: increased control and faster sequences, particularly appreciated in dynamic shooting.

Optic Ready compatibility

The model is **optic-ready** and directly accepts an RMR-type micro-red dot sight, for intuitive and rapid aiming. It is also equipped with dovetail-mounted fiber optic sights.

Controls and safety

Ambidextrous levers, a larger magazine release button, and a larger slide catch ensure smooth handling. The extended beavertail and grip safety enhance comfort and security.

Accessories included

Supplied in a case with two 17-shot chrome-finished magazines, a can of Flunatec degreaser and a can of Flunatec lubricant, for immediate and practical maintenance.

- **Sight:** front fiber optic / black notched rear sight
- **removable trigger:** interchangeable profiles
- **gripping ridges:** front and back
- **trigger guard:** textured straight
- **Magazine well:** with flared magwell
- **chargers:** double battery chrome finish
