High-end version with its elongated frame and enlarged levers

The **Tisas 2011 Duty Bull Barrel Full Frame 9x19 pistol** combines balance, comfort and accuracy in a modern configuration designed for intensive sport shooting.

- **caliber:** 9x19 mm
- **length:** 220.5 mm
- **height:** 146 mm
- **width:** 37.2 mm
- **barrel length:** 124 mm (5" bull barrel)
- **line of sight:** 166.7 mm
- **weight without charger:** 1053 g ±10 g
- **weight with full magazine:** 1354.7 g ±10 g
- **magazine capacity:** 17 rounds
- **trigger:** single action
- **frame material:** forged carbon steel
- **cylinder head material:** forged carbon steel
- **safeties:** manual safety, hammer safety, beavertail handle safety

The **Tisas Duty Bull Barrel Full Frame 9x19** is a premium upgrade of the 2011, designed to deliver stability, comfort, and performance during sport shooting sessions. Its optic-ready configuration and optimized controls appeal to shooters looking for a precise and modern tool.

Ergonomics and shooting comfort

The full-frame body with integrated Picatinny rail provides remarkable balance and allows for the addition of accessories such as a flashlight or laser. The textured, non-slip grip, combined with a flared magazine well, ensures smooth and secure handling and optimizes reloading maneuvers.

Performance and precision

Equipped with a 5" **bull barrel** made of forged and chrome-plated steel, this pistol eliminates the need for muzzle bushing. The result: increased rigidity, less vibration, and consistent accuracy, even on long runs.

Optic Ready compatibility

Designed to accommodate an RMR-type micro-red dot, this **optic-ready** model adapts to the modern needs of sport shooting and allows rapid target acquisition.

Optimized controls and security

The enlarged magazine release and slide catch simplify handling. The ambidextrous safety lever and elongated beavertail enhance both safety and comfort. The removable trigger with interchangeable profiles allows the feel to be adjusted to the shooter's liking.

Accessories included

Delivered in a case with two 17-round chrome-finished magazines and two Flunatec oilers (degreaser and lubricant), this pistol is ready for immediate use and maintenance. The 2011 (or 2K11) pistols use Double Stack magazines, whose cartridges are distributed in two columns to increase the shot capacity.

Technical explanation - Bull Barrel

A **bull barrel** is a thickened barrel, more stable than a standard barrel. Its design improves accuracy, reduces vibration, and increases the weapon's longevity.

Technical explanation - Forged carbon steel

Forged carbon steel is obtained by forming under pressure, creating a homogeneous and resistant internal structure. This guarantees durability and reliability, even during intensive use.

- **Sight:** front fiber optic / black notched rear sight
- **removable trigger:** interchangeable profiles
- **gripping ridges:** front and back
- **trigger guard:** textured straight
- **beaver tail:** elongated
- **chargers:** double battery chrome finish
