Lightweight and completely waterproof for your fishing sessions.

Lightweight Nylon Waders are designed to offer reliable **waterproof** protection while ensuring excellent freedom of movement. Made from **70 denier nylon** with a PVC coating, they provide both strength and lightness for freshwater and shore fishing.

- **Material:** Ultra-resistant 70 denier nylon
- **Coating:** Polyvinyl chloride (PVC) substrate
- **Waterproofing:** 100% waterproof
- **Seams:** Factory sealed and tested
- **Straps:** Adjustable elastic
- **Construction:** Feet with molded boots and sturdy soles
- **Sizes:** From 40 to 45

Reliable waterproof protection

When wading through cold water or along a soggy bank, the most important thing is simple: stay dry. Thanks to its **PVC backing** , this model provides an effective **waterproof barrier** . The factory-tested, **taped seams** minimize any risk of leaks - a real advantage during long sessions in rivers or ponds.

70 denier nylon: lightweight and durable

Made from **70-denier nylon** , these **chest waders** combine flexibility and durability. The fabric offers good abrasion resistance while remaining lightweight, significantly improving walking comfort. In practice, the freedom of movement is immediately appreciated, especially during frequent movement along riverbanks.

Comfort and tailored support

Adjustable elastic suspenders allow for a precise fit depending on body shape and layers worn underneath. The high-cut design provides effective protection up to the chest, while the **molded boot construction and robust soles** ensure stability and traction on soft or wet surfaces.

Equipment designed to last

Easy to clean and designed for regular use, these waders are suitable for both specialist retailers and anglers looking for functional and durable gear. Available in sizes **40 to 45** , they meet the most common needs in stores.

FAQ

Are these waders completely waterproof?

Yes, thanks to their PVC coating and factory-tested, sealed seams, they provide 100% waterproof protection under normal conditions of use.

What type of fishing are they suitable for?

They are suitable for freshwater fishing, in rivers, ponds or wetlands, where partial immersion is required.

How do I care for these nylon waders?

Rinsing with clean water after use and air drying are sufficient. Avoid direct heat sources to preserve the coating and the flexibility of the nylon.
