Compact GBB SMG that folds into a case: rapid deployment, compatible with Glock VFC.

Compact and original Gas Blowback replica, designed for the player seeking discretion, rapid deployment and robustness.

- **Operation** : Gas Blowback (GBB).
- **Firing modes** : Safe / **Semi-auto** / **Full-auto** .
- **Construction** : metal, aluminum and polymer for strength and controlled weight.
- **Length** : folded 250 mm - unfolded 490 mm.
- **Weight** : 1200 g.
- **Hop-Up** : adjustable.
- **Magazine** : 45 BBs (G17 VFC / Umarex compatible).
- **Barrel** : 14 mm CCW threaded.
- **Format** : foldable case with integrated carrying handle.

The VFC FMG9 takes the iconic concept of the FMG-9 and converts it into a compact GBB replica presented in a folding case.

Ideal for CQB or for those looking for a discreet replica that is easy to carry, it offers a real tactical advantage thanks to its rapid deployment and Glock magazine compatibility.

Design, deployment and transport

The replica folds down like a compact case and unfolds automatically when the bolt is pulled back. The integrated carrying handle and simplified folding mechanism allow for secure storage and very quick deployment in the field.

Construction and ergonomics

Constructed from **metal, aluminum, and polymer** , the FMG9 aims for a good compromise between strength and weight (1200 g). The controls are accessible once the replica is unfolded, and the ergonomics are designed for CQB use with natural guidance and intuitive handling.

Performance and compatibility

Operating with **gas blowback** and **adjustable hop-up** , the FMG9 offers Safe/Semi/Full modes to adapt to all game situations. The 45-round magazine (compatible with VFC/Umarex G17) ensures comfortable magazine capacity during gameplay, and the **14mm CCW threaded barrel** allows for the addition of threaded accessories as needed.

Maintenance tips

To guarantee reliability and longevity: lubricate the cylinder head and seals, check the valve seals, use a gas suitable for the ambient temperature and store the replica depressurized to preserve the seals.

FAQ - Questions/Answers

Is the replica delivered ready to use?

The replica is delivered without gas or BBs; you will need to provide GBB compatible gas and BBs for operation.

How does the briefcase deployment work?

Deployment is achieved by pulling the bolt backwards: the structure unfolds automatically to transform the case into an operational SMG.

Which chargers are compatible?

45 BB magazine included; compatible with VFC Glock G17 magazines and some Umarex magazines - check compatibility model by model.

Does the cannon accept accessories?

Yes, the barrel is threaded in 14 mm CCW, allowing the installation of compatible silencers or compensators.
