The new pellets, equipped with AccuTek™ technology, present a revolution in the Gamo catalog.

Gamo Rocket Accutek pellets feature a steel head and a lead body to combine the benefits of both materials.

- New lead alloy much more ductile and malleable for optimal adaptation of the lead to the barrel (grooves and chamber). You can feel it to the touch.
- Steel head for added piercing power.
- Packaging: 150 pieces

It is not just about improving quality, but about the entire manufacturing process in order to have the best pellets on the market.

- New formula: Technological innovation has been combined with improved production materials to make this lead possible.
- Improved Accuracy: Gamo AccuTek Series pellets are more accurate, capable of achieving unmatched groupings.
- More aerodynamic: new design of the disc and displacement of its center of mass for better aerodynamics.
- Optimal adaptation: new lead alloy, more ductile and malleable for better adaptation to the barrel (chamber and grooves).
