Biodegradable and tracer pellets for luminous shots in night conditions or dark CQB!

These tracer pellets glow green when used with a tracer unit, allowing their trajectory to be followed even in total darkness. Their weight of 0.32g makes them ideal for improved replicas, offering better penetration through foliage and increased wind resistance. Packaged in a 1KG resealable bag, they combine practicality and quality.

Technical characteristics:

- **Weight** : 0.32g
- **Diameter** : 6mm
- **Material** : Biodegradable PLA
- **Tracing color** : Green
- **Quantity** : 1kg bag or approximately 3125 BBs
- **Packaging** : Resealable bag
- **Box** : 20 Bags

Made in **Taiwan** by **BLS** , these balls benefit from **ultra-precise calibration at 5.95 mm ±0.01 mm**

They incorporate a high-quality fluorescent additive compatible with the majority of **tracer unit** devices on the market (type Xcortech, Acetech, G&G, etc.).

Their **biodegradable PLA structure** offers a reduced impact on the environment, without compromising on consistency or compatibility with precision guns.
