Make your VMP-1 the ultimate backup with the Nuprol Holster

Convert your VMP-1 into a secondary replica and take to the field with your SMG securely attached to your setup with this custom-made VMP-1 holster from NUPROL

Features:

- Specially designed for the VMP-1 replica of VORSK
- The "Quick Draw" release lever allows for quick movements to and from the trigger
- Nylon PA6 - Premium case material used worldwide for its stiffness/flexibility balance
- 40-slot, 360° orientation panel for perfect drawing angle
- Comes with a hip/belt retention paddle
- Available Accessories - Drop Leg Platform, MOLLE Adapter, Shoulder Harness...

.

NUPROL, VORSK's parent company, had access to all the technical information needed to design a perfectly fitting holster for the VMP-1. Designed and manufactured in collaboration with the "Perfect Fit" holster line, you can rely on this holster to carry your SMG like a gas-operated handgun in the field.

Minimalist, but effective

At first glance, this open case seems difficult to carry with the size and weight of the VMP-1, but rest assured: its design guarantees optimal support, while making it easily accessible when needed.

The holster utilizes the left front Picatinny rail to securely hold the VMP-1 in its holster, along with a reinforced trigger guard block to support the weight.

Due to its installation method, you will have to be selective about which accessories are attached to the VMP-1's front rails, with the 20mm Flat-Top being the only one still fully available and free from the case.

"Quick Draw" release lever

This holster features a conveniently positioned Quick Draw lever for quick transitions to and from the trigger, essential for those crucial moments when your secondary weapon deserves its place. To further aid in drawing, the holster is equipped with a 40-position 360° orientation system that helps you find the ideal draw angle.
