LE816	LEE SQ Index Rod Long #TP2673 #TP2673	Vente libre	7.00 € incl. tax

Ensure smooth rotation of your progressive press.

The **Lee SQ Index Rod Long** is an official replacement part to maintain smooth and accurate operation of your **Lee Load-Master** or **Pro 1000** progressive press (or any compatible model). This shaft allows for synchronized rotation of the tool plate for a reliable and consistent automatic reloading cycle. Manufactured by **Lee Precision** , this long rod is ideal for replacing a worn or damaged part and thus extending the life of your press. Simple installation, without complex adjustments.

The Lee SQ **Index** Rod Long is specially designed to ensure smooth **automatic rotation** of the tool plate on your progressive press.

Genuine Lee Precision Part

This long rod is manufactured to **Lee Precision** specifications to ensure perfect fit and optimal function.

Synchronized and regular rotation

It synchronizes the movement of the rotating plate, ensuring precise passage of cases between each reloading station.

Quick replacement without complex adjustments

Installation is simple and allows you to restore fluidity to a press with a worn or bent rod in just a few minutes.
