Deburr and remove military crimps easily.

The **Lee Ram Swage** is a tool specifically designed to efficiently remove primer crimps from military caliber cartridge cases. Attached to the **ram of your Lee press** , this robust and easy-to-use tool cleanly flares the primer housing, removing the crimp for easy repriming with standard primers. With its precise design and universal compatibility with Lee single-station presses (and other compatible models), the **Ram Swage** is an essential accessory for effortlessly recycling your military cartridge cases and extending their life.

The **Lee Ram Swage** is the perfect accessory for removing **primer crimps** from your military cartridge cases and making repriming easier.

Safely remove the crimp

The **Ram Swage** cleanly deburrs and removes the crimp from military cartridge cases, avoiding any difficulty when inserting a new primer.

Simple mounting on the ram

It is installed directly on the **ram of the press** and operates by pressure during the cycle, for fast and precise work.

Wide compatibility

The **Lee Ram Swage** works on any **single-stage or turret press** that has a **7/8"-14 thread** in the press frame, and that accepts the press's universal shell holders.
