Perfect case length thanks to the calibrated gauge and socket holder.

The **Lee Case Length Gauge & Shell Holder** is a **manual resizing** kit that includes a caliber-specific length gauge and a fitted shell holder to ensure accurate and consistent case resizing.

- **Type:** Length Gauge + Shell Holder
- **Purpose:** Case cutting to CIP standard
- **Compatibility:** Lee Cutter & Lock Stud (not included)
- **Contents:** 1 calibrated gauge + 1 socket holder
- **Manufacturing:** Genuine Lee Precision Part

Calibrated set for a case that is always the right size

Each pack includes a **calibrated length gauge** and a matching **shell holder** , ensuring the case is properly centered during cutting. The tool perfectly guides the blade of the **Lee Cutter** (sold separately) to remove excess material at the neck without burrs.

Why cut your cases?

A consistent case length ensures **accurate chambering** , consistent pressure, and **increased case life** . It also prevents misfiring caused by excessive length or a distorted neck.

Compatible with many calibers

Available for several standard **over-the-counter** calibers, the tool is ideal for pistol or rifle cartridge users and fits into any demanding reloading routine.

- **Calibers available:** .32 ACP, 7.62 × 25mm Tokarev, .38 Short Colt, .357 SIG, .32 S&W, .38 Super Auto, .375 Ruger
- **Material:** Machined steel
- **Use:** Precision reloading, case maintenance
- **Required Accessory:** Lee Cutter & Lock Stud
