Double cavity: two warheads in each casting for maximum productivity.

The **Lee Mold DC** allows for the production of two bullets per casting. Its machined aluminum body ensures good yield and a consistent finish.

- **Type:** Double Cavity Ball Mold
- **Projectile weight:** 140 grains
- **Material:** Machined aluminum
- **Handles:** Ergonomic wood included

Rapid production with double cavity

Thanks to its two cavities, this mold allows for the simultaneous casting of two perfectly calibrated projectiles. A major advantage for reloaders seeking optimized yield without compromising on quality.

Lightweight and high-performance construction

Machined aluminum allows for rapid heating and clean demolding. Complete filling from the first pours avoids common defects associated with improper heating.

Ergonomics designed for long sessions

The included **ergonomic wooden** handles provide a comfortable and thermally insulated grip, ideal for extended manufacturing sessions.
