Double cavity mold for .418 320 grain flat nose bullets.

The **Lee Mold DC .418-320-RF** is a dual cavity bullet mold designed to efficiently produce **320 grain** , **.418 caliber** projectiles with a Round Flat profile.

- **Type:** Double Cavity Bullet Mold
- **Caliber:** .418
- **Projectile weight:** 320 grains
- **Shape:** Round Flat (RF)
- **Total warhead length:** 0.970 inches
- **Nose to first throat distance:** 0.530 inches
- **Material:** Machined aluminum
- **Handles:** Ergonomic wood included

A high-performance mold for the .418 caliber

Specially designed for the historic **.41 Swiss** caliber, this mold allows the production of heavy **320 grain** flat-nose projectiles. The **Round Flat** shape is ideal for good energy transmission and flight stability, with a **ballistic coefficient of .228** .

Maximum productivity with double cavity

Thanks to its two cells, this mold allows two bullets to be cast in each cycle, significantly speeding up production rates. Perfect for regular users or professional reloaders.

Machined aluminum design

The **lightweight aluminum** structure ensures rapid temperature rise, reducing preheating time. Demolding is easy, for clean projectiles with every pour.

Comfortable grip

Comes with ergonomic and insulated **wooden handles** , it offers excellent handling, even during long manufacturing sessions. Thermal comfort is guaranteed.

- **Use:** Manual reloading, production of heavy warheads
- **Target caliber:** .41 Swiss or other compatible .418

- **Profile:** Round Flat, for long-distance or large-caliber shooting
- **Ballistic coefficient:** 0.228
