Locate and train your dog with an ultra-compact and powerful GPS collar.

The **CANICOM GPS MINI with stimulation** from **NUM'AXES** is the ideal companion for hunters and dog handlers looking for a reliable and accurate tracking collar, specially designed for smaller dogs. Lighter and more compact than the CANICOM GPS 2, this collar retains all the geolocation and long-range training performance that have made the range so successful. Thanks to its latest generation GPS/GALILEO/BDS/GLONASS module, it allows real-time tracking up to 15 km and educational recall up to 3 km. Equipped with high-visibility LEDs, an electronic compass and an adjustable stimulation system, it offers optimal control and enhanced safety for your outings. Its 25-hour battery life, IP67 waterproofing and compatibility with the CANICOM GPS MINI and GPS 2 systems make it a reliable and scalable choice for all your hunting or outdoor activities.

MINI GPS Collar: Ideal for precise tracking and long-range training

The **CANICOM GPS MINI** with stimulation is designed for owners of small dogs who want a **highly accurate tracking** system and effective training functionality. Compact, robust, and easy to use, it's ideal for demanding terrain.
