NUM407	CANICOM GPS MINI tracking kit	Vente libre	7.6	3.6	3.3	164	645.00 € incl. tax

The compact and ultra-precise GPS system to track and train your dog with confidence.

The **CANICOM GPS MINI tracking kit with stimulation** from NUM'AXES combines the best of dog tracking and training technology. Designed for small dogs, this complete set includes a miniaturized collar (30% smaller than the CANICOM GPS 2) and an ergonomic remote control, both equipped with the latest generation GPS/GALILEO/BDS/GLONASS modules for optimal accuracy. With a tracking range of up to 15 km and an effective training function (beep, vibration, stimulation) up to 3 km, this system guarantees total control of your dog on any type of terrain. The dedicated, intuitive and free mobile application allows you to track your dog's position in real time, create virtual fences and share its location. IP67 waterproof, robust and equipped with high-visibility LEDs, the CANICOM GPS MINI ensures safety and comfort for all your outings.

MINI GPS Set: Track and train your dog safely

The **CANICOM GPS MINI set** with stimulation is specially designed for owners of pointing or hunting dogs who are looking for a **compact and efficient solution** for tracking and recalling their dog. Thanks to its location accuracy and long-distance range, you remain in control at all times.
